Senate President Keith Faber
Statehouse
1 Capitol Square, 2nd Floor
Columbus, OH 43215

Dear Senator Faber,

We are very fortunate to have several former TriStar students as leaders and long-time employees of Celina Tent. Their TriStar education prepared them for successful careers after high school. I know first-hand the benefits of this education as my children are former TriStar students, and I served on the TriStar board in the past. The current initiative to update the TriStar Career Compact is important to our Company, and I believe also necessary for our area communities.

Now is the time for revitalization of the Career Compact. An updated Career Center will enable new and better educational and training programs to our area students and incumbent workers. As the necessity for more skilled workers continues to increase and to keep needed workers in our area, we need an updated Career Center. The Career Center can benefit our area students, while also providing opportunities for our current workforce to develop necessary skills for their current jobs, as well as, prepare them for promotions and/or increased responsibilities.

We ask that you support the TriStar 2.0 Career Compact. It will benefit the education and opportunities of our students, and an update to the Career Center and programs can benefit our incumbent workers with training programs. I believe that in supporting this concept, you will impact the lives of countless Ohio residents and provide an important upgrade for the development of our current and future workforce.

Sincerely,

Janice Grieshop

Janice Grieshop
Vice President
