Dear Friends,

As a collaboration of agencies committed to serving our most vulnerable children in the city of Elyria, we respectfully submit our application and the attached documents to support our Elyria Teens Achieve Success Mentoring program. We've worked tirelessly to develop a program that will give our teens the best we can offer among everyone's unique services that will incorporate the Community Connectors Core Principles. Elyria Teens Achieve Success will offer teens an invaluable mentoring program and experience that has never been accessible to them before. We truly believe it holds the key to help them unlock their unlimited potential and believe in themselves.

Please do not hesitate to contact me should you have any questions or require additional information. Thank you for your time and consideration.

Sincerely,

Lisa Gonzalez Bramhall
Executive Director
