

Community-Building Institute  
Middletown Inc.

March 2, 2015

To Whom It May Concern:

The Community Building Institute would like to express our thanks for the opportunity to better serve the youth of the Middletown City School District. This has been an amazing experience as many members of our community have come to the table to discuss how best to build on the strengths of one of our most vital resources.

We are fortunate that we have had this chance to plan and to learn about how each member of the community can have a role in creating a healthier community for our youth. The faith community has been very willing to participate and while we have two groups fully committed, many others have expressed a desire to be involved. Community businesses have also shown a willingness to support our efforts. Each day it seems that more offers of support are forthcoming.

We feel that we have created a continuum of services for the youth in the Middletown City School District, not by recreating the wheel but by providing a structure for existing services to work together toward common goals.

Thank you again for making the effort necessary to provide this opportunity.

Respectfully,

Karin Maney, CBI Executive Director
