Re: Community Connectors

Dear Ms. Smith,

On behalf of Parents for Public Schools of Greater Cincinnati, I am pleased to provide this letter in support of the Easter Seals Tristate application to the Community Connectors grant for the benefit of consumers and their families in the Hamilton, Clermont, Butler and Franklin counties.

As a community partner for 20 years, Parents for Public Schools of Greater Cincinnati advocates for and empowers parents/caregivers to foster academic excellence of students and schools. Many of the parent leaders who have graduated from our Parent Engagement Programs have implemented successful projects throughout the state of Ohio. These action-oriented projects are focused on increasing academic achievement and character development while increasing parent and community involvement.

Parents for Public Schools of Greater Cincinnati has collaborated with Easter Seals Tristate by providing workshops for Ohio Works First consumers.

I consider the Easter Seals Tristate a strong collaborative partner in the many community initiatives directed toward serving youth and their families. Through their actions, they provide culturally, socially, and emotionally competent services that are directed toward the families served. Therefore, I think this grant supports and expands the services Easter Seals Tri State is committed to continually providing. I strongly support their grant application and their ability to deliver on the outcomes intended through this grant.

If you would like more information that would help support our application, please feel free to contact me at lbryant@ppsgc.org.

Thank you,

Sincerely,

Lathel Bryant
Executive Director
