

Steve Oster, Superintendent

To Whom It May Concern:

Our agency (Help Me Grow) is writing this letter to offer our support for the Community Connectors Grant mentoring program that is being sponsored by First Step Family Violence Prevention Services. As a supporting agency, we will assist in providing services for the span of the grant and beyond if needed. The services provided will amount to, one to three, half-hour sessions, for a maximum of 1.5 hours a month, once or twice in the school year, free of cost to participants. We believe our support will help the program in reinforcing the Community Connector's principles of setting goals to be prepared for 21st century careers, building character, developing pathways to achievement, building resiliency, and believing in a positive future.

Sincerely,

Shana Snow

Coshocton County Board of DD
