To Whom It May Concern:

Our agency is writing this letter to offer our support for the Community Connectors Grant mentoring program that is being sponsored by First Step Family Violence Prevention Services. As a supporting agency, we will assist in providing services for the span of the grant and beyond if needed. The services provided will amount to, one to three, half-hour sessions, for a maximum of 1.5 hours a month, once or twice in the school year at a cost of 10 Kids. We believe our support will help the program in reinforcing the Community Connector's principles of setting goals to be prepared for 21<sup>st</sup> century careers, building character, developing pathways to achievement, building resiliency, and believing in a positive future.

Sincerely,

*Teresa L Baker*
