

To whom it may concern;

I have known Jerry Mitchell for well over 15 years, as business associates and a as a friend. Looking back through his life; from his education and time as a Pastor, to working as a medical device sales person and a business developer, his entire life has prepared him to be in this position to work with at risk boys. Combine that with a man of character, and the passion to help others, so as to offer tools, support and the chance to change people's attitudes and ultimately their entire outlook on life. I cannot think of one person who would be better suited for this opportunity, than Jerry.

When you stop to think about 'what type of a man Jerry is', the words that come to mind are; trustworthy, loving, caring, beyond reproach, compassionate, dedicated, and most of all devoted. Devoted to his family, to his beliefs and devoted to helping others.

I feel truly fortunate to have been part of Jerry's life and can only imagine that each and every 'at risk boy' that has the chance to come in to contact with him will feel the same way.

Regards,

*Spence Brown*
