Guy,

Good afternoon, I am the President of the Davis-Besse chapter of North American Young Generation in Nuclear (NAYGN). One of our key initiatives is building relationships within the community and educating local youth on the various aspects of nuclear power. My Site Vice President Ray Lieb mentioned that he had lunch with you earlier this week and that Benton-Carroll-Salem schools may be interested in developing an ongoing relationship with the plant. We view this as an excellent opportunity for both organizations and I would like to get together with you and any members of your staff who may have input as to what type of support you would like from us. Please let me know if you are interested in coming to the plant for a tour or if you would like us to come to you to discuss what we can offer your school district. I look forward to hearing from you soon, thanks.

Trent A. Henline
Supervisor Nuclear Engineering Programs
Davis-Besse Nuclear Power Station
Mail Stop DB-1056

10-9-13

Mr. Henline,

On behalf of our Board of Education and the Benton-Carroll-Salem School community, thank you for reaching out! We are very eager to develop an ongoing relationship with Davis-Besse/First Energy that benefits both parties. As our treasurer, Tim Coffman, and I stated to Mr. Lieb, we both have an interest in each others success. I am interested in both a plant tour, and in discussing what First Energy can offer the district. Feel free to reach me on my cell phone at anytime-- (419) 707-3761 -- so that we can have some initial discussion. You can also reach me at my office--(419) 898-6210. I look forward to talking with you soon.

Thanks,

Guy Parmigian
Superintendent
B-C-S Local School District
