October 22, 2013

Dear Straight A Review Committee:

The Ohio Schools Council is in full support of, and a willing partner in the grant application from the Buckeye Local Schools (Medina County) and the Cloverleaf Local Schools (Medina County), in partnership with WINOC and the Medina County Educational Service Center, for the implementation of LEAN Management training and coordination for the participating school districts.

Over the past 26 years, the Ohio Schools Council has been a facilitator and staunch supporter of numerous programs and initiatives that have created operational efficiencies in school districts, through shared services and cooperative purchasing. The Ohio Schools Council, currently representing 198 school districts in 35 Ohio counties, believes the LEAN Management program will continue these efforts in creating financial and operational efficiencies into the future. The LEAN Management program has proven to be highly successful in the private business sector and should be equally successful in creating operational efficiencies in public school districts.

The Ohio Schools Council is prepared to support the program and will commit the necessary time and personnel to ensure that the program is successful. It is our goal that the success of this program can be extended to other school districts throughout the Ohio Schools Council service area and the state of Ohio.

Please contact me if I can be of further assistance related to this grant application.

Sincerely,

Dr. William Zelei
Executive Director
