

STRAIGHT A FUND

Memorandum of Understanding

As a member of the **STEM for Community Schools Consortium** our school hereby agrees to the following:

- Our school will convert at least one classroom into a room dedicated to STEM. If an extra room is unavailable we will create a “STEM mobile lab” to allow for a similar experience for our students.
- Our school will participate in face to face or virtual professional development sessions on the implementation of STEM lessons in our program.
- Our school will purchase curriculum and materials needed to support STEM instruction with grant funds. Once grant funds are exhausted, we will supplement with general fund dollars.
- Our school will dedicate at least one science block per week to STEM lessons and integrate STEM where ever possible in the core curriculum.
- Our school will continue STEM lessons long after the grant has concluded using general fund dollars to sustain the initiative.
- Our school will highlight STEM activities at one or more open house nights annually.
- Our school will include information for parents and the community on STEM lessons in our newsletter or on our website.
- Our school will participate in dissemination meetings with other consortium schools to share STEM ideas and develop additional lessons and activities.
- Our school will complete all grant related projects on-time and report all progress to the lead school on the application. All funds will be committed by June 30, 2014 and spent by September 30, 2014.
