October 21, 2013

Dear Sir/Madam;

Midmark is a worldwide manufacturer and supplier of healthcare products, equipment and diagnostic software for medical, veterinary, and dental markets. Our main manufacturing plant is located in Versailles, Ohio. Midmark Corporation has been an active partner with Darke County Economic Development particularly in the area of workforce development. Our company continues to grow and the skill needs of the employees we hire are becoming more and more sophisticated. Midmark currently employs over 800 personnel with a wide variety of training, skills and knowledge. We support the construction and development of an Advanced Manufacturing Training Center at Greenville City Schools as we believe it will assist us in advancing the skills of our current workforce while providing us with a pool of qualified applicants for the future. In order for us to maintain our reputation as a “global leader”, we need to continue to develop the potential of our workers.

Sincerely,

A handwritten signature in cursive script that reads "Sue Hulsmeyer".

Sue Hulsmeyer
