Applicants shall respond to the prompts or questions in the areas listed below in a narrative form.

A) APPLICANT INFORMATION - General Information, Experience and Capacity

1. Project Title: Innovative Curricular Resources

2. Executive summary: Provide an executive summary of your project proposal and which goal(s) in question 9 you seek to achieve. Please limit your responses to no more than three sentences.

Summit Academy Community School Painesville would like to purchase four resources; A+nywhere Learning System, Connector, Educational Impact and Grade Cam, to address all three of the Straight A goals; improving student achievement, reducing spending, and enabling a greater share of resources to be used in the classroom. A+nywhere Learning System will provide the school with a supplemental K-12 electronic curricular resource allowing teachers a greater capacity for true differentiated instruction. Grade Cam and Connector will allow for streamlined grading of all classroom assessments and activities. Finally, adding Educational Impact will provide a robust professional development suite that is directly aligned with OTES & OPES requirements.

3. General Information

3.1 Unique Identifier (IRN/Fed Tax ID): 000629

3.2 Address of lead applicant: 268 North State Street Painesville, OH 44077

3.3 Phone Number of lead applicant: 440-358-0877

3.4 Email Address of lead applicant: frank.cheraso@summitacademies.org

4. Lead applicant primary contact: Provide the following information:

4.1 First Name, last Name of contact for lead applicant: Frank Cheraso

4.2 Organizational name of lead applicant: Summit Academy Community School Painesville

4.3 Unique Identifier (IRN/Fed Tax ID): 000629

4.4 Address of lead applicant: 268 North State Street Painesville, OH 44077

4.5 Phone Number of lead applicant: 440-358-0877

4.6 Email Address of lead applicant: frank.cheraso@summitacademies.org

5. Secondary applicant contact: Provide the following information, if applicable:

5.1 First Name, last Name of contact for secondary applicant: Deb Skul

5.2 Organizational name of secondary applicant: Summit Academy Community School Painesville

5.3 Unique Identifier (IRN/Fed Tax ID): 000629

5.4 Address of secondary applicant: 268 North State Street Painesville, OH 44077

5.5 Phone Number of secondary applicant: 330-670-8470

5.6 Email Address of secondary applicant: deb.skul@summitacademies.org

6. List all other participating entities by name: Provide the following information for each additional participating entity, if applicable: Mention First Name, Last Name, Organizational Name, Unique Identifier (IRN/Fed Tax ID), Address, Phone Number, Email Address of Contact for All Secondary Applicants in the box below.

7. Partnership and consortia agreements and letters of support: - (Click on the link below to upload necessary documents).

7.1 Letters of support are for districts in academic or fiscal distress only. If school or district is in academic or fiscal distress and has a commission assigned, please include a resolution from the commission in support of the project.

8. Please provide a brief description of the team or individuals responsible for the implementation of this project including relevant experience in other innovative projects. You should also include descriptions and experiences of partnering entities.

Frank Cheraso
Frank received his undergraduate degree from Cleveland State University, earned a Bachelor's degree in Education, and is licensed to teach grades 1-8. He recently completed his Master of Education from the University of Cincinnati in Educational Leadership and has a K-12 principal's license. Frank has been with Summit Academy since 2001 where he started in Parma as a teacher, became the Director of the Parma school in 2003, and recently transferred to the Painesville school as the Director in 2012. Debra Skul is Chief Academic Officer for the Summit Academy schools. These schools are public, community schools designed specifically for children and adolescents with ADHD, Autistic Spectrum Disorders and other related conditions. Ms. Skul is responsible for choosing and developing curriculum materials and instructional methods that take into account the unique learning styles found in of these students who have Asperger's Disorder or ADHD. Ms. Skul holds a Bachelor's Degree in Elementary Education from Baldwin-Wallace College and a Masters of Science in Education from Lake Erie College. John Guyer is the Technology Director at The Summit Academy. As the Technology Director, John has been responsible for the network and data center since that time. In 2010, Mr. Guyer moved the data center to its current location and has been the Technology Director for the past three years. He has been responsible for many technology and building projects and oversees Summit Academy's EMIS Department.

9. Which of the stated Straight A Fund goals does the proposal aim to achieve? - (Check all that apply)

9.1 Student achievement

9.2 Utilization of a greater share of resources in the classroom

9.3 Spending reductions in the five-year fiscal forecast

10. Which of the following best describes the proposed project? - (Select one)

10.1 New - never before implemented

10.2 Existing and researched-based - never implemented in your district or community school but proven successful in other educational environments

10.3 Mixed Concept - incorporates new and existing elements

10.4 Enhancing/Scale Up - elevating or expanding an effective program that is already implemented in your district, school, or consortia partnership

11. Describe the innovative project.

In many cases, teachers are limited in the availability of up-to-date quality resources that align with the Common Core Standards. When purchasing textbooks and other resources they quickly become out dated and necessitate a new curricular adoption within a few years cost to already restricted budgets. Not only are teachers limited in the access of resource materials but within our classrooms we have many students at different ability levels. Teachers struggle with providing instruction to each of these ability ranges within each classroom. Through the selection of A+nywhere Learning System (A+LS), Connector and GradeCam teachers will be able to provide their students with individualized instruction along with immediate feedback that allows them to respond to every student's needs. A+nywhere Learning System (A+LS) is a full curricular resource for grades K-12 that provides a comprehensive assessment suite including prescriptive, formative, summative and mastery based testing. A+LS can be utilized in many different ways to be tailor fit to all classroom needs. Diagnostic assessments that are aligned to state, common core and national standards are utilized to provide automatic prescriptions to meet the individual student needs based on their performance and mastery of skills. Additionally through the flexible Assignment Management feature of the A+LS software, teachers are able to design their own thematic units, project-based lesson activities or add lessons to units from multiple grade levels under the same content area. The robust content and different assessment models, enable the software to be used across multiple district programs, including Credit Recovery, Alternative Ed., State Test (OCT/GAA) and ACT/SAT prep., College Readiness, SED, Special Ed., and many other programs. All content and assessment as well as the management system are available at any time for students and teachers through the internet. With the addition of Connector to the A+LS teachers will have a streamlined reporting system that calculates grades and gives parents access to student progress and real-time grades. The program is highly visual, employing a variety of streaming video, resource links and high quality graphics to keep students actively engaged and motivated to learn. A+LS is easily coupled with other education technology such as video projectors, interactive white boards, student response devices and mobile chalkboards, thus broadening the scope of learning activities and styles that can be addressed in the classroom. GradeCam will...
12. Describe how it will meet the goal(s) selected above. If school/district receives school improvement funds/support, include a brief explanation of how this project will advance the implementation plan.

The project will advance the school improvement plan by increasing academic success, allowing teachers to instruct students at their levels and put the greatest share of resources in the classroom. Each resource that is added to the classroom will allow the teacher more time and flexibility as grading and assigning student work is tackled through electronic methods. Cost savings will be realized as these are one-time purchases due to the fact we would own these products. Savings will be realized on a yearly basis as the need for yearly curricular cost will be reduced through the ownership of updatable electronic curriculum. The reduction in spending will continue to be realized as teachers will no longer need to take off instructional days to attend expensive professional development sessions while losing instructional time in the classroom. The key to this project is that it will provide instant assessment and accountability that will allow teachers to adjust their instruction to meet the needs of the students. The Summit Academy OIF will be positively impacted by these initiatives as we work to improve student performance on Ohio Curriculum Achievement Assessments. This provides a more concentrated focus on student strengths and weaknesses and an increase in teacher time on task in the classroom. As teachers spend less time grading, locating resources and attending professional development sessions, the real focus can be placed on instruction and student development. The project will provide a challenging standards-based curriculum that best suits every child’s developmental level and individual needs also assisting with greater student achievement.

13. Financial Documentation - All applicants must enter or upload the following supporting information. Responses should refer to specific information in the financial documents when applicable:

a. Enter a project budget

14. What is the total cost for implementing the innovative project?

286,000.00 * Total project cost

* Provide a brief narrative explanation of the overall budget. The narrative should include the source and amount of other funds that may be used to support this concept (e.g., Title I funding, RTF money, local funding, foundation support, etc.), and provide details on the cost of items included in the budget (i.e., staff counts and salary/benefits, equipment to be purchased and cost, etc.).

The total cost of the project is $286,000.00. This is the total amount of funds being requested through the Straight A Grant Fund. If awards are no other additional funds will be needed to support this initiative. A+LS

15. What new/recurring costs of your innovative project will continue once the grant has expired? If there are no new/recurring costs, please explain why.

3,500.00 * Specific amount of new/recurring cost (annual cost after project is implemented)

* Narrative explanation/rationale: Provide details on the cost of items included in the budget (i.e. staff counts and salary/benefits, equipment to be purchased and cost, etc.). If there are no new/recurring costs, please explain why.

In this project model, the only ongoing cost would be an annual update and service package for the A+LS. This cost is $3,500.00 per year and is an optional expenditure. If funds are not available for the $3,500.00 cost, the program would still be functional and maintain all system capabilities. All other products are a one-time cost. Teacher training on all system is another area where there may be potential ongoing cost. The initial professional development purchased with this package is designed as a train the trainer model to provide a pool of individuals within the district that can train other staff members. Ideally, this will not be an ongoing cost but it is never a 100% guarantee that all staff will be retained within the district. The selected professional development package will allow for all staff to be trained and in subsequent years train new teachers as they are added to Summit Academy.

16. Are there expected savings that may result from the implementation of the innovative project?

36,641.00 * Specific amount of expected savings (annual)

* Narrative explanation/rationale: Provide details on the anticipated savings (i.e. staff counts and salary/benefits, equipment to be purchased and cost, etc.)

Through the implementation of these resources the school will experience several savings over the course of the next five years and beyond. Initial savings will be experienced as early as two year of the program as all products are a one-time cost. In years past purchases of curriculum resource have been made on average in the amount of $45,801.00 With the Purchase of the A+LS program as a supplemental resource, curriculum cost will be reduced resulting in a yearly savings of $36,641.00, which is the average cost minus the A+LS yearly update charge. Through the approach of seeking ownership of electronic text that are updatable substantial cost savings are realized while still allowing materials to stay up-to-date. Educational Impact will also create several opportunities for cost savings to be realized providing the school a way to provide teacher training while avoiding additional cost like travel and substitute teacher time. Expected savings will be seen for the foreseeable future as the seed money given through the Straight A Fund will establish these resources in the school with little to no additional cost.

17. Provide a brief explanation of how the project is self-sustaining. If there are ongoing costs associated with the project after the term of the grant, this explanation should provide details on the cost reductions that will be made that are at least equal to the amount of new/recurring costs detailed above. If there are no new/recurring costs, explain in detail how this project will sustain itself beyond the life of the grant.

With negligible cost associated with updating and sustaining this project the cost reductions far exceed the minimal $3,500.00 annual cost. With purchasing a long term curriculum supplement, curriculum cost will be reduced in the future. The cost savings will then be utilized to benefit the schools overall operating budget. When implementing any project of this nature there is always a need to ensure that all staff are well trained and up to speed on the utilization of any new resources added to the classroom. This single factor can truly be the difference between success and failure of any program. With this in mind, to help with the longevity of this project we have incorporated a professional development package that includes training that will take place over the course of the first three years of the implementation. The training will be a Train the Trainer model that allows teachers to later help and assist with on-boarding new staff members. If all staff members are trained to have the capability to train others the staff become the true factor that make this project sustainable well beyond the lifetime of the grant funds. As stated, staff training is critical to the success of these initiatives. Along with the train the trainer model, we are purchasing an online professional development platform that will allow teachers to train at their own pace at times that are convenient for them. In some cases, teachers are hired after the initial training has taken place and this teacher learning platform will allow those individuals to access training without disrupting any classroom instructional time.

D) IMPLEMENTATION - Timeline, communication and contingency planning

18. Fill in the appropriate dates and an explanation of the timeline for the successful implementation of this project. In each explanation, be sure to briefly describe the largest barriers that could derail your concept or implementation plan.

Describe the ongoing communication plan with the stakeholders as the project is implemented. (Stakeholders can include parents, community leaders, foundation support and businesses, as well as educational personnel in the affected entities.)

* Proposal Timeline Dates

Plan (MM/DD/YYYY): 1/30/14

* Narrative explanation

Plan-All involved parties were brought together to identify the needs of the school and how they can be rectified. The group researched and determined that the identified software would fit all three areas of this grant. Once proposals were gathered the group met with the schools treasurer to ensure this route would have a tremendous cost savings for the school. The group decided that initiation of the project will begin immediately upon receipt of the award letter to have greater impact on student achievement. A meeting will be scheduled with all involved parties to define and assign roles and responsibilities within the project. To ensure the plan stays on track purchase orders will be created and submitted to vendors. A professional development calendar will be created with the vendors to ensure our specific training dates can be secured. At this time, we do not anticipate barriers to completion.

Implement (MM/DD/YYYY): 8/30/14
19. Describe the expected changes to the instructional and/or organizational practices in your institution.

Instructionally, these programs will allow the teachers to have access to more curricular resources than they have had in the past. Traditionally, when text materials are used in the classroom, the teacher only has access to that grade level material. With these electronic tools the teacher in every classroom will have at their fingertips all content from grades K-12 which becomes invaluable as we look at the diversity of learners in every classroom. The power of the electronic platforms used in combination with each other now provide the teacher the power to instruct every student at their own individual instructional level and have the technology assist with grading and organization of the information. Teachers now have the power and resources to adjust their instruction to the needs of every student. As data and information is gathered through the program, teachers now have an electronic method by which student data is collected and organized to allow them to shift instruction as needed. Teachers will now be able to drastically reduce the time spent grading assessments and other activities to focus on driving and improving instructional outcomes for students. As a result, teachers will be able to provide more meaningful/targeted instruction and more time on task for their students. This will have a direct and positive correlation with student achievement. With the availability of these programs to students 4-7 students can be provided with extended and meaningful learning opportunities that go beyond the classroom and the traditional structure of the school day.

**E) SUBSTANTIAL IMPACT AND LASTING VALUE - Impact, evaluation and replication**

20. Describe the rationale, research or past success that supports the innovative project and its impact on student achievement, spending reduction in the five-year fiscal forecast or utilization of a greater share of resources in the classroom.

Implementing the described project will allow educators to have access to resources that will help them provide the best possible learning environment for their students. With the availability of these programs, teachers can access content and materials electronically as well as in print form or both. This resource is valuable to students at all grade levels. By providing the resources through a variety of methods, students can access the material that best suits their learning style.

21. Is this project able to be replicated in other districts in Ohio? [ ] Yes [ ] No

22. If so, how?

The project is easily replicated throughout the state and in other schools and districts. Outside of the initial cost of the programs, it is a self-sustaining project as there are no yearly or ongoing costs. The other fact that makes this project easily duplicated is that it is not unique to a particular demographic or school population. There is no minimum or maximum student populations to see an impact on the students which are all factors that would make these good practices for all schools. The cost of the project is based off of site licenses for the software so the number of students at a school does not increase the cost of the program.

23. Describe the substantial value and lasting impact that the project hopes to achieve.

The project is a very easily replicated throughout the state and in other schools and districts. Outside of the initial cost of the programs, it is a self-sustaining project as there are no yearly or ongoing costs. The other fact that makes this project easily duplicated is that it is not unique to a particular demographic or school population. There is no minimum or maximum student populations to see an impact on the students which are all factors that would make these good practices for all schools. The cost of the project is based off of site licenses for the software so the number of students at a school does not increase the cost of the program.

24. What are the specific benchmarks related to the fund goals identified in question 9 that the project aims to achieve in five years? Include any other anticipated outcomes of the project that you hope to achieve that may not be explicitly benchmarked.

25. Describe the plan to evaluate the impact of the concept, strategy or approaches used.

* Include the method by which progress toward short- and long-term objectives will be measured. (This section should include the types of data to be collected, the formative outputs and outcomes and the systems in place to track the program’s progress).

26. By virtue of applying for the Straight A Fund, all applicants agree to participate in the overall evaluation of the Straight A Fund for the duration of the evaluation timeframe. The Governing Board of the Straight A Fund reserves the right to conduct evaluation of the plan and requires the applicant to submit surveys, focus groups, and any other relevant data to the legislative, governor, and other interested parties for an overall evaluation of the Straight A Fund.

**PROGRAM ASSURANCES: I agree, on behalf of this applicant agency and/or all identified partners to abide by all assurances outlined in the Assurance section of the CCIP. In the box below, enter “I Accept” and indicate your name, title, agency/organization and today’s date.

Stephanie Ataya Treasurer Summit Academy Management 2791 Mogadore Rd. Akron, OH 44312 10/25/2013
