Re: Partnership Letter

To Whom it May Concern,

This letter is in reference to the current and ongoing partnership between Netech and Toledo Public Schools. Netech has had and maintained a partnership with TPS since 2009 during which time we have worked with the district to successfully complete projects valued at well over three million dollars. These projects included a variety of technologies including LAN Network, Wireless, and Video Conferencing for TPS groundbreaking distance learning applications. We are currently working in partnership with TPS on another five million dollars in technology to ready the entire district for the upcoming Online Assessment initiatives in the State of Ohio. We have worked diligently to become a trusted partner to Toledo Public Schools and look forward to working with them on many exciting initiatives going forward.

Please let me know if there is anything further I can be of assistance with.

Sincerely,

A handwritten signature in black ink, appearing to read "Mike Martin".

Mike Martin  
Netech Toledo Branch Manager
