

Lisa Murray, Technology Coach
Vermilion Local Schools
5355 Sailorway Dr.
Vermilion, Ohio 44089

Dear Lisa,

On behalf of Agilix Labs, Inc., I would like to offer my company's resources and support to the Straight A Fund application that Vermilion Schools and the Stark Portage Area Computer Consortium are submitting to enhance the online and blended learning program to their K-12 teachers and students.

For the past 4 years, the Stark Portage Area Computer Consortium (SPARCC) member districts have been using the BrainHoney content management system to deliver nearly 50 online credit courses and hundreds of blended courses to student enrollments totaling over 14,000. Vermilion wants to expand their online offerings to teachers in grades K-6 enabling the teachers to offer additional content and resources to the students. Agilix Labs, Inc. is willing to provide professional development opportunities to the teaching staff on how to use BrainHoney to deliver content online. The professional development opportunities, along with the hosting service that Agilix provides, ensures teacher success in enhancing their instruction through online learning.

Thank you for the opportunity to be part of your proposal and I wish you luck in your application.

Respectfully,

Thomas Collette, VP Sales
Agilix Labs, Inc.
733 E. Technology Ave.
Orem, UT 84097
