October 24, 2013

The Western Reserve Board of Education is supportive of the Straight A Fund initiative that is a collaboration of the Western Reserve Local School District along with the University of Akron and Valley Energy Solution. The ability to save money by reducing energy costs and leveraging that savings into professional development of staff and enhancing the STEM curriculum of our school is an innovative and exciting plan with great sustainability over the next 30 years.

Sincerely,

Mark Halls

School Board President

Paul Henderson

Dear Grant Selection Committee:

As the President of the Teachers Of Western Reserve Local Schools Union, I am at times asked to give my support for various events, activities, or amendments to which our school is taking part in. With that in mind, I would like to enthusiastically give my support for the application for the "Straight A Fund" Grant. As a representative of the teaching staff of Western Reserve Local Schools, I know that I speak for all of us when I say that we welcome the opportunity to put into practice all of the opportunities that your grant offers.

Thank you for your consideration of our application.

Sincerely,

A handwritten signature in black ink, appearing to read "Paul Henderson", with a long horizontal flourish extending to the right.

Paul Henderson  
TOWR President/English Teacher
